Application of Excise Taxes and Trade Discounts in Establishing
Unit Prices for Material Procured

REF : Your memo for Chief, Supply Division, OL, Subject: Same as above,
dated 5 September 1957

1. The application of Federal Excise Taxes and Trade Discounts to fixed prices would require Depot Stock Control to apply such proportionally to each item on each receiving document. It is not considered advisable to assign additional work to this section as it is currently understaffed.

2. Should it be vital that fixed prices include Federal Excise Taxes and Trade Discounts, it is suggested that such be accomplished by the Machine Records Division.
